

**Shoreway Environmental Center
Shoreway Facility Operations Monthly Reporting
September 2019**

Dear Joe:

Commodity Market Update

Scrap values for non-fiber (plastic, glass, aluminum, and metals) remain weak. Non-fiber pricing (scrap + CRV) has not changed much. Scrap pricing for fiber remains volatile. Cardboard (OCC) and Mixed Paper pricing and movement remain dependent on the export market.

Fiber (OCC and Mixed Paper) pricing is heavily influenced by demand in China. That demand is regulated by government issued import permits. Those permits are carefully controlled, and the quantity (tons) issued is being reduced. Those reductions have a serious impact on global pricing, which remains weak. Many in the industry anticipated that 2019 would be released on a quarterly basis with annual volumes being Q1 40%, Q2 30%, Q3 20% and Q4 10%. This schedule is referred to as 4-3-2-1.

As China has reduced their demand for imported Fiber those tons have found markets in other SE Asian countries. The supply demand imbalance continues to depress pricing. The domestic demand in western US for Fiber remains static, and therefore most of the Fiber recovered at MRFs in CA all flows to SE Asia. We have explored many other markets, such as India, Mexico, South America, and Europe, but none are feasible.

With China reducing their demand for Fiber in Q4 2019, it is likely that there will be further price erosion in the next few months.
