ADDENDUM 1: LIMITED TIME RECYCLABLES PROCESSING RFP

The purpose of this document is to provide clarification regarding RethinkWaste's Request for Proposals for Limited Time Recyclables Processing issued on March 31, 2020. Due to the COVID-19 situation and impacts on many businesses' operations, the wet signature requirements for various Proposal sections and forms (such as for notarization in Form E: Anti-Collusion Affidavit) are waived. In other words, the submission of scanned signatures and forms within the overall electronically submitted PDF Proposal is accepted.
