

**Shoreway Environmental Center
Shoreway Facility Operations Monthly Reporting
January 2021**

Dear Joe:

Commodity Market Update

Scrap values for non-fiber (plastic, glass, aluminum, and metals) remain stable. California Refund Value (CRV) rates were adjusted by CalRecycle, and those changes are minor. The CRV program remains healthy, although there may be changes as CalRecycle looks to improve participation and recycling rates.

Scrap pricing for Mix Paper (MP) and Cardboard (OCC) continues to be negatively impacted by severe disruptions to vessel and equipment flows. Goods movement throughout SE Asia have created capacity shortages which cause transport rates to increase while equipment (export containers and chassis) availability is unpredictable. As a result, all export cargo from the west coast of North America to SE Asia is struggling to find vessels that are capable and willing to move it offshore.

MP and OCC supply far exceeds demand in the western US, and as a result MRFs in CA remain dependent on SE Asian markets. SBR continues to aggressively search for domestic and regional markets for OCC and MP. However, the OCC and MP remains dependent on SE Asia. The good news is those markets want and need the fiber. The bad news is that the lack of export containers and vessel space results in SBR stacking material on site. The situation is both fluid and unpredictable.
