

**Shoreway Environmental Center  
Shoreway Facility Operations Monthly Reporting  
February 2024**

Dear Joe:

SBI continues to make significant strides in making operational improvements and are engaged in various projects to improve the Shoreway Environmental Center buildings and grounds.

Standard Operating Procedures (SOPs) are being developed and implemented and we continue to streamline processes to improve workflow. These enhancements will allow us to handle a higher volume of materials while maintaining rigorous safety and environmental standards. Implementation of our computerized maintenance management system (CMMS) remains on schedule to be active by March.

We continue to invest in training programs to ensure that our personnel are equipped with the latest knowledge and skills. We conducted our biannual Emergency Response and Fire Control training in February. Our commitment to ongoing professional development has contributed to a safer and more proficient work environment. The LEA performed its monthly inspection at the end of February and we received a favorable report..

While we are proud of the progress made thus far, we remain committed to continuous improvement. Our team is actively exploring opportunities for further optimization and innovation to ensure that our disposal and material processing facility remains at the forefront of industry standards.
