

A Public Agency

SBWMA LEGISLATIVE COMMITTEE MEETING

TUESDAY, MAY 7, 2024 at 3:00p.m.

Place:
RethinkWaste Offices
610 Elm Street Suite 202
San Carlos, CA 94070

Teleconference Locations*
Al Royce
Hillsborough Town Hall
Administrative Conference Room
1600 Floribunda Ave.
Hillsborough, CA 94010

The public may observe/participate in Committee meetings using remote public comment options or attending in person. Committee members shall attend in person unless remote participation is permitted by law.

TO ADDRESS THE COMMITTEE IN PERSON

Masking is not required but according to the California Department of Public Health guidelines, people at higher risk for severe illness should consider masking. To help maintain public health and safety, we respectfully request that people NOT attend in-person if they are experiencing symptoms associated with COVID-19 or are otherwise ill and likely contagious (e.g., respiratory illnesses).

To address the Committee on any item – whether on the posted agenda or not – please fill out a Request to Speak Form and submit it to the Board Clerk. Speakers are not required to submit their name or address.

REMOTE PARTICIPATION

Members of the public may participate in public Agency meetings by logging into the Zoom:

<https://us02web.zoom.us/j/81542479527?pwd=QnIvSXZZcW5XTzBJbmVOZjhVNUFPUT09>

Dial in: 1 669 444 9171

Meeting ID: 815 4247 9527

Passcode: 044400

Written public comments for the record may be submitted in advance by 12:00 p.m. on the meeting date by email to: rethinker@rethinkwaste.org and will be made part of the written record but will not be read verbally at the meeting. Written public comments submitted by email should adhere to the following: 1) Clearly indicate the Agenda Item No. or specify “Public” in the Subject Line for items not on the agenda and 2) Include the submitter’s full name. You may also use the raise hand feature on Zoom to enter a verbal public comment.

*Pursuant to Ralph M. Brown Act, government code section 54953, all votes shall be by roll call if any members of the board of directors are participating by teleconference and/or video conference.

AGENDA

1. Call to Order/Roll Call
2. Public Comment

Persons wishing to address the Board on matters NOT on the posted agenda may do so. Each speaker is limited to three minutes. If there are more than five individuals wishing to speak during public comment, the Chairman will draw five speaker cards from those submitted to speak during this time. The balance of the Public Comment speakers will be called upon at the end of the Board Meeting. If the item you are speaking on is not listed on the agenda, please be advised that the Board may briefly respond to statements made or questions posed as allowed under The Brown Act (Government Code

EXECUTIVE DIRECTOR'S UPDATE

Agenda Item 3 is a verbal report only at the
05/07/2024 SBWMA Legislative Committee Meeting

A Public Agency

CONSENT CALENDAR

DRAFT MINUTES

SOUTH BAYSIDE WASTE MANAGEMENT AUTHORITY
MEETING OF THE LEGISLATIVE COMMITTEE
March 5, 2024 3:00PM
RethinkWaste Offices 610 Elm Street Suite 202, San Carlos, CA 94070

Call To Order: 3:07PM

1. Roll Call

Member	Present	Absent
Al Royse	X	
Adam Rak	X	
Adam Loraine	X	
Warren Slocum		X

SBWMA Staff Members Present: Julia Au, Joe La Mariana, Cyndi Urman, Jean Savaree
Others Present: Kayla Robinson, Environmental and Energy Consulting.

2. Public Comment

Pursuant to Government Code Section 54954.3(a), members of the public wishing to address the Committee may do so, and the comments shall be limited to the Special Meeting notice topic(s). Speakers may join the Zoom meeting via the meeting link and using the "raise hand" feature and the Clerk of the Board will call on people.

None

3. Executive Director's Welcome

Executive Director La Mariana welcomed the committee to the meeting and gave the following updates:

The SWANA Legislative Task Force that he is a part of has created a sub-committee to work on SB 54, and he is engaged in that committee.

Last Wednesday he traveled to Sacramento to lobby for funding of \$200M for SB 1383 procurement assistance, and \$500M to offset Zero emission vehicle construction at facilities like Shoreway to be included in the Climate Bond that is being proposed in the legislature. He met several legislators and legislative aides both representing our service area and on the Natural Resources Committee and the Environmental Quality Committee.

Kayla Robinson noted that the request made aligns with others in the waste reduction and transportation

industries.

Member Royse asked if the bond would be broken down in terms of dollars for waste, or transportation etc.

Executive Director La Mariana answered that his understanding is that it's a build number and this is one of many line items.

4. Approval of Consent Calendar

Consent Calendar item(s) are considered to be routine and will be enacted by one motion. There will be no separate discussion on these items unless members of the Committee, staff or public request specific items be removed for separate action. *Items removed from the Consent Calendar will be moved to the end of the agenda for separate discussion.*

A. Approval of the Minutes from the February 6, 2024 Legislative Committee Meeting

Motion/Second: Loraine/Royse

Voice Vote: 2-0-1-1

Member	Yes	No	Abstain	Absent
Al Royse	X			
Adam Rak			X	
Adam Loraine	X			
Warren Slocum				X

5. Legislative and Regulatory Updates from EEC and Committee Discussion

Kayla Robinson of EEC gave the following updates.

Following up on the taxpayer protection ballot measure conversation from last meeting. Currently it's on the ballot for November 2024, but the Governor has filed a lawsuit against the ballot measure citing it's unlawful, and CalCities has filed an Amicus brief citing the same thing, but the proponents have filed their own. It will be June before more is known.

She then gave an update on the introduced legislation for this session. She noted that she would focus on the new bills introduced, not the two-year bills on the list that the Agency has already taken a position on.

Member Rak asked if any action needed to be taken on the two-year bills this year.

AB 1567 (Garcia) and SB 867 (Allen) are bonds that align with RethinkWaste's priorities and the letter that was just submitted, and we continue to advocate for bonds.

- Member Loraine asked if Diane Papan was working on one of these bonds, or a new bond.
- Kayla Robinson noted that Assemblymember Papan was a co-author of AB 1567.

Several **Bottle Bill spot bills** have been introduced, but none that the agency should take a position on at this time.

- Joe noted that the changes to the bottle bill last year that were supported by RethinkWaste and ultimately passed by the Governor, should equal increased revenue for the agency due to more categories of material being accepted into the program.

- Member Rak asked if changes in the bottle bill would mean the agency should think about reopening the buyback center again.
- Executive Director La Mariana noted that the two are somewhat unrelated as the passing of this bill will mean that glass recycling trucks will fill up faster and therefore bring more revenue to the agency. As opposed to the buyback center which is or was for individuals to redeem bottles and cans for the redemption value.

Member Loraine asked for further clarification on what a spot bill meant.

Kayla Robinson answered that spot bills are ones where something vague is introduced with the intent of amending in the future.

SB 537 (Becker) is a two-year bill that is further along in the process than the other bills introduced related to teleconferencing that are currently spot bills, but there aren't any bills in this space that need to be addressed at this time.

AB 2311 (Bennett) is recommended for support. It takes the existing Greenhouse Gas Reduction Fund (GGRF) and applies it to edible food recovery, so that it can be applied more broadly and support SB 1383 compliance.

- There were no issues with taking a support position for this bill.

SB 2346 (Lee) is recommended for support is trying to open up additional avenues for procurement for SB 1383 and is being run by StopWaste in Alameda County.

- Member Royse asked to make sure it would not reduce the impact of SB1383, by adding more options.
- Kayla Robinson answered no, they are working closely with CalRecycle on this to make sure that it's not undermining the intent of SB 1383.
- Member Loraine noted that his only hesitation for support would be if it were to reduce the value of what RethinkWaste is providing.
- Executive Director La Mariana noted that he could see an unintended consequence of 1383 as a whole, because increased supply of compost could lead to saturation of the market. But this bill is aligned with the spirit of SB 1383

AB 2577 (Irwin) is recommended for support it requires a best buy date stamp on food.

- Member Rak commented that this is just a labeling bill, and he is in support.

AB 2902 (Wood) is recommended for watch position at this time, and is bill related relief for rural counties related to 1383.

SB 972 (Min) is currently a spot bill that is planning to create an avenue for local government assistance for 1383, and it would require CalRecycle to report to the legislature on 1383. Not yet recommending support until the bill is in print, but EEC will likely recommend support.

- There were no issues with conceptual support at this time.

SB 1046 (Laird) – is recommended for support. It requires CalRecycle to create an environmental impact report for small and medium compost facilities, and not require smaller compost facilities to do their own environmental impact report and aims to ease some permitting strife.

- Member Loraine asked if this would compete with RethinkWaste
- Executive Director La Mariana noted that staff didn't see it that way and supported anything that would help increase capacity in the marketplace.
- There were no issues with support.

AB 2236 (Bauer-Kahan) and SB 1053 (Blakespear) – Aims to remove the loophole in the bag ban that allows for thicker plastic bags.

- Staff Au asked if San Mateo County's bag ban ordinance, because it had been grandfathered in for \$0.25 instead of \$0.10 per bag cost, would supersede this bill either way.
- Kayla Robinson recommended taking a pause on support to do that research before the committee decided.
- Member Loraine asked in what way does this bill reduce plastic waste.
- Kayla Robinson noted that when the bill was originally passed there was a loophole that allowed for the thicker plastic bags many retailers use, and this bill would remove that loophole and remove plastic bags entirely. She also noted she would check with the authors of the bill to confirm.

AB 2761 (Hart) is recommended for support, it bans PVC and PFAS from plastic packaging.

- There were no issues with support.

SB 1066 (Blakespear) is recommended for support, it creates an extended producer responsibility program for marine flares.

- There was no opposition to support.

SB 1280 (Laird) is recommended for support and would require small propane cylinders to be refillable or reusable.

- Member Royse noted that he supports it in principle but isn't clear on what the language about the city attorney authorizing civil penalties the bill would mean.
- Kayla Robinson noted that many bills include this language as an alternative enforcement method.
- Member Royse asked for further clarity on that language offline.

SB 1143 (Allen) is recommended for support and creates an EPR program for household hazardous waste beyond what is already covered by other legislation.

- There was no opposition to support.

Member Royse asked if there were any bills introduced related to toxic chemicals in solar panels.

AB 2 (Ward) is a two-year bill that is a "support in concept" by the agency bill. It would include solar panels as part of electronic waste.

Executive Director La Mariana noted that there are 57 bills that the Agency is tracking, 15 in organics, 5 in plastics, 7 in product stewardship, and 4 or 5 in toxics.

Member Rak asked for a discussion at the next meeting about where to focus resources, since this is such a large list of bills.

6. Legislative Committee Member Comments

Member Royse asked to coordinate the environmental impact of the bills the Agency is supporting.

7. Adjourn 4:10PM

May 7, 2024

2025-2034 LRP Development & Timeline

- Staff recommends a 10-year plan (vs previous 5-year plans)
- Annual Progress Reports

Planning Structure

Mission Statement

Current

To serve as solid waste industry leaders in public health, safety and environmental stewardship by providing our ratepayers with innovative cost-effective zero waste programs and Member Agency climate action plan alignment through education, engagement, infrastructure and policy development.

Proposed Revised

To implement innovative, cost-effective waste reduction and recycling programs for our Member Agency communities through high quality collection services, environmental education, facility infrastructure and policy development.

Vision Statement

Current

Rethink Waste is recognized for its innovative waste reduction and recycling programs and facility infrastructure which are dedicated to the preservation and enhancement of the quality of life and the environment for our member agency communities.

Proposed Revised

To create affordable and sustainable programs that lead to a zero-waste future.

Guiding Principles

Current

- Maintain and support and economically sustainable solid waste system
- Enhance environmental benefits to the community
- Provide high quality and convenient programs and services

Goal Setting

Should Policies & Legislation be an individual goal or weaved into other goals?

Goal: Policies & Legislation

Objectives?

- Comply with all applicable local, state and national laws and regulations
- Advocate for and support Extended Producer Responsibility (EPR) legislation and initiatives to ban non-recyclable and non-compostable materials

Strategies?

Performance Indicators/ Milestone Targets?

LEGISLATIVE AND REGULATORY UPDATES

STAFF REPORT

To: RethinkWaste Legislative Committee Members
From: Julia Au, Sr. Outreach, Education and Compliance Manager
Date: May 7, 2024 Legislative Committee Meeting
Subject: Legislative and Regulatory Updates from Environmental and Energy Consulting (EEC) and Committee Discussion

Recommendation

This staff report is for discussion purposes only.

Summary

The agency's lobbyist, Environmental and Energy Consulting (EEC) will provide an update on the most up-to-date 2024 California Legislative Session and current regulatory activities, including legislation the agency is tracking and supporting. May 17 is the last day for fiscal committees to hear and report to the Floor bills introduced in their house. May 24 is the last day for each house to pass bills introduced in their house.

Attachment A contains the full list of bills EEC has currently marked to track for the agency and includes which ones we have sent or signed on to letters for. To get the most current bill languages, please check the California Legislative Information website: <https://leginfo.legislature.ca.gov/>

Attachment A – Bill Tracking for 2024 legislative session updated as of April 29, 2024

RethinkWaste Legislative Update

Monday, April 29, 2024

Priority 1 (High)

AB 2346 (Lee D) Organic waste reduction regulations: procurement of recovered organic waste products.

Status: 4/25/2024-Read second time. Ordered to Consent Calendar.

Location: 4/24/2024-A. CONSENT CALENDAR

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chapters
1st House				2nd House							

Calendar: 4/29/2024 #129 ASSEMBLY CONSENT CALENDAR 1ST DAY-ASSEMBLY BILLS

Summary: The Department of Resources Recycling and Recovery’s organic waste regulations require local jurisdictions to annually procure a quantity of recovered organic waste products and to comply with their procurement targets by directly procuring recovered organic waste products for use or giveaway or by requiring, through a written agreement, that a direct service provider to the jurisdiction procure recovered organic waste products, or both. Those regulations specify the types of recovered organic waste products that a jurisdiction may procure, including compost that is produced at a compostable material handling operation or facility, or a specified digestion facility that composts onsite. Other regulations of the department require all compostable materials handling activities to obtain a facility permit from the department prior to commencing operations and meet other specified requirements, but exclude from those requirements certain activities that the regulations state do not constitute a compostable material handling operation or facility, including the composting of green material, agricultural material, food material, and vegetative food material, and the handling of compostable materials under certain conditions, as provided. This bill would authorize local jurisdictions to be credited for the procurement of recovered organic waste products through an agreement with a direct service provider, as defined, and would allow the direct service provider agreement to include the procurement of recovered organic waste products on a prospective or retrospective basis as long as the purchase of those products occurs during the year for which the local jurisdiction seeks credit. The bill would also authorize local jurisdictions to count towards their procurement targets, compost produced and procured from specified compost operations, as defined, and, until 2030, investments made for the expansion of the capacity of compostable materials handling operations or community composting operations, as provided.

Position

Support

Notes: Support letter submitted to Asm. NR Committee.

SB 1143 (Allen D) Household hazardous waste: producer responsibility.

Status: 4/23/2024-Set for hearing April 29.

Location: 4/16/2024-S. APPR.

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chapters
1st House				2nd House							

Calendar: 4/29/2024 10 a.m. - 1021 O Street, Room 2200 SENATE APPROPRIATIONS, CABALLERO, ANNA, Chair

Summary: The California Integrated Waste Management Act of 1989, which is administered by the Department of Resources Recycling and Recovery, requires a city and a county to prepare and submit to the department a countywide integrated waste management plan. The act requires the plan to include a household hazardous waste element that identifies a program in each city and county for the safe collection, recycling, treatment, and disposal of hazardous wastes that are generated by households. The Plastic Pollution Prevention and Packaging Producer Responsibility Act establishes a producer responsibility program designed to ensure that producers of single-use packaging and food service ware covered by that program take responsibility for the costs associated with the end-of-life management of that material and ensure that the material is recyclable or compostable. This bill would create a producer responsibility program for products containing household hazardous waste and require a producer responsibility organization (PRO) to provide a free and convenient collection and management system for covered products. The bill would define “covered product” to mean a product that is flammable, toxic, ignitable, corrosive, reactive, or pressurized, and that meets other specified criteria.

SB 1426 (Blakespear D) Waste reduction: undiverted materials.

Status: 4/24/2024-April 24 set for first hearing. Failed passage in committee. (Ayes 3. Noes 2.)

Location: 4/3/2024-S. E.Q.

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: The California Integrated Waste Management Act of 1989, administered by the Department of Resources Recycling and Recovery, generally regulates the disposal, management, and recycling of solid waste, as defined. Existing law authorizes each county, city, district, or other local governmental agency to determine aspects of solid waste handling that are of local concern and whether the services are to be provided by means of nonexclusive franchise, contract, license, permit, or otherwise. The act requires a city, county, or city and county, or regional agency formed under the act, to develop a source reduction and recycling element of an integrated waste management plan containing specified components. The act requires those jurisdictions to divert 50% of the solid waste subject to the element, except as specified, through source reduction, recycling, and composting activities. This bill would prohibit an exclusive franchise, contract, license, or permit to provide services for diversion from exceeding the services required to be performed and actually performed under the exclusive authorization. The bill would require a person who provides services for diversion by means other than a franchise, contract, license, or permit, to comply with applicable law, as specified.

[AB 2](#)

(Ward D) Recycling: solar photovoltaic modules.

Status: 9/1/2023-In committee: Held under submission.

Location: 8/14/2023-S. APPR. SUSPENSE FILE

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: The Electronic Waste Recycling Act of 2003 (act) requires a retailer selling a covered electronic device in this state to collect from a consumer at the time of retail sale a covered electronic waste recycling fee or a covered battery-embedded waste recycling fee, as specified. The act defines "covered electronic device" to include certain video display devices and battery-embedded products. The act requires all charges collected pursuant to the act to be deposited into specified subaccounts within the Electronic Waste Recovery and Recycling Account, and outlines certain other requirements related to the establishment, adjustment, and administration of the charge. Moneys in the subaccounts are continuously appropriated for specified purposes, including, but not limited to, paying covered electronic waste recycling fee refunds and making electronic waste recovery and recycling payments. Current law incorporates the requirements and other provisions of the act by reference as requirements and provisions of the hazardous waste control laws. The act also expressly authorizes the Department of Toxic Substances Control (DTSC) to enforce the act, and all regulations adopted pursuant to the act, through the hazardous waste control laws. A violation of the hazardous waste control laws is a crime. This bill would, among other things, expand the definition of "covered electronic device" to include a "customer-owned solar PV module," as defined, thereby expanding the scope of the act to include covered solar photovoltaic (PV) module products, for limited purposes, as provided. The bill would also require, on or before October 1, 2026, and on or before October 1 each year thereafter, CalRecycle to establish a covered solar PV recycling fee based on the reasonable regulatory costs to administer covered electronic waste recycling. The bill would require the charge to be imposed upon a consumer or a service provider serving the consumer for the purchase of a new or refurbished covered solar PV module product. The bill would also require the charge to be adjusted annually based on the California Consumer Price Index. The bill would create the Covered Solar PV Module Recycling Fee Subaccount as a continuously appropriated fund in the Electronic Waste Recovery and Recycling Account. Because the funds deposited to the Covered Solar PV Module Recycling Fee Subaccount would be a new source of funds in the continuously appropriated subaccount within the continuously appropriated Electronic Waste Recovery and Recycling Account, the bill would make an appropriation.

AB 863

(Aguiar-Curry D) Carpet recycling: carpet stewardship organizations: fines: succession: training.

Status: 9/14/2023-Failed Deadline pursuant to Rule 61(a)(14). (Last location was INACTIVE FILE on 9/11/2023)(May be acted upon Jan 2024)

Location: 9/14/2023-S. 2 YEAR

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	2 year	Conf.	Enrolled	Vetoed	Chaptered
1st House				2nd House				Conc.			

Summary: Current law requires a manufacturer of carpets sold in this state to submit, either individually or through a carpet stewardship organization, a carpet stewardship plan that meets specified requirements to the Department of Resources Recycling and Recovery. Current law imposes a carpet stewardship assessment per unit of carpet sold in the state that is remitted to the carpet stewardship organization and may be expended to carry out the organization’s carpet stewardship plan. Current law requires the carpet stewardship plan to provide sufficient funding to carry out the plan, including for grants to state-approved apprenticeship programs for training apprentice and journey-level carpet installers in proper carpet recycling practices. Current law requires a carpet stewardship organization to include in the plan a description of the process by which the carpet stewardship organization will transfer assessment funds to a successor carpet stewardship organization in the event that should become necessary. Current law requires a carpet stewardship organization in possession of assessment funds to, as directed by the department, transfer those funds to a successor carpet stewardship organization with an approved plan. Existing law authorizes the department to administratively impose civil penalties on any person who is in violation of any provision of the carpet stewardship laws, of up to \$5,000 per day or \$10,000 per day if the violation is intentional, knowing, or negligent. This bill would amend those penalties to \$10,000 per day or \$50,000 per day if the violation is intentional, knowing, or reckless.

Position
Support

Notes: Sign-on support letter.

AB 1238

(Ward D) Hazardous waste: solar panels.

Status: 6/7/2023-Failed Deadline pursuant to Rule 61(a)(10). (Last location was ED. on 8/25/2023) (May be acted upon Jan 2024)

Location: 9/14/2023-S. 2 YEAR

Desk	Policy	Fiscal	Floor	Desk	2 year	Fiscal	Floor	Conf.	Enrolled	Vetoed	Chaptered
1st House				2nd House				Conc.			

Summary: Current law requires the Department of Toxic Substances Control to adopt regulations for the identification and management of hazardous wastes. Current law authorizes the department to adopt regulations designating end-of-life photovoltaic modules that are identified as hazardous waste as a universal waste and subject to regulations applicable to universal waste management. A violation of the Hazardous Waste Control Law, including a regulation adopted pursuant to that law, is a crime. This bill would require the department to develop alternative management standards for managing photovoltaic modules. The bill would specify parameters for the standards, including, but not limited to, that they promote the safe collection, reuse, and recycling of photovoltaic modules.

AB 2236

(Bauer-Kahan D) Solid waste: reusable grocery bags: standards: plastic film prohibition.

Status: 4/10/2024-In committee: Set, first hearing. Referred to suspense file.

Location: 4/10/2024-A. APPR. SUSPENSE FILE

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf.	Enrolled	Vetoed	Chaptered
1st House				2nd House				Conc.			

Summary: Current law prohibits a store, as defined, from providing a single-use carryout bag, as defined, to a customer, with specified exceptions, including an exemption for bags used to contain unwrapped food. Existing law requires a reusable grocery bag sold by a store to a customer at the point of sale to be made by a certified reusable grocery bag producer and to meet specified requirements with regard to the bag’s durability, material, labeling, heavy metal content, and, with regard to reusable grocery bags made from plastic film, recycled material content. Current law prohibits a producer of reusable grocery bags made from plastic film from selling or distributing those bags unless the producer is certified by a third-party certification entity, and provides proof of that certification and a certification fee to the department, as specified. Current law also prohibits a store from selling or distributing a recycled paper bag at the point of sale unless the store makes that bag available for purchase for not less than \$0.10. Current law defines “recycled paper bag,” in part, as a paper carryout bag that contains a minimum of 40% postconsumer recycled materials, except as provided, and meets other requirements. Current law allows a retail establishment to voluntarily comply with these requirements, if the retail establishment provides the department with irrevocable notice. This bill would, commencing January 1, 2026, revise and recast those provisions to, among other things, revise the single-use carryout bag exception to include a bag provided to a customer before the customer reaches the point of sale, that is designed to protect a purchased item from damaging or contaminating other purchased items in a checkout bag, or to contain an unwrapped food item, as specified. The bill would revise the definition of “recycled paper bag” to require it be made from 100% postconsumer recycled materials, without exception.

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf.	Enrolled	Vetoed	Chaptered
1st House				2nd House				Conc.			

Summary: The California Global Warming Solutions Act of 2006 authorizes the State Air Resources Board to include the use of market-based compliance mechanisms. Current law requires all moneys, except for fines and penalties, collected by the state board as a part of the market-based compliance mechanism to be deposited in the Greenhouse Gas Reduction Fund. Current law requires the Department of Resources Recycling and Recovery, upon appropriation, to administer a grant program to provide financial assistance to promote the in-state development of infrastructure, food waste prevention, or other projects to reduce organic waste, sort and aggregate or process organic and other recyclable materials into new, value-added products, or divert items from disposal through enhanced reuse opportunities. Current law requires the grant program to provide eligible financial assistance for certain activities, including activities that expand and improve organic waste diversion and recycling, including, but not limited to, the recovery of food for human consumption and food waste prevention. Current law specifies eligible infrastructure projects for purposes of the program, including, but not limited to, the construction of facilities to help develop, implement, or expand edible food waste recovery operations. This bill would expand the grant program to provide financial assistance for the recovery of edible food, as specified. The bill would specify that eligible infrastructure projects includes the construction or expansion of facilities to help develop, implement, or expand edible food waste recovery operations.

(Aguilar-Curry D) Solid waste: organic waste: diversion: hydrogen: biomethane.

Status: 4/11/2024-Re-referred to Com. on APPR.

Location: 4/9/2024-A. APPR.

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf.	Enrolled	Vetoed	Chaptered
1st House				2nd House				Conc.			

Summary: The California Integrated Waste Management Act of 1989 generally regulates solid waste disposal, management, and recycling. The act requires each city, county, and regional agency to

develop a source reduction and recycling element of an integrated waste management plan. The act requires that element to include a 50% solid waste diversion requirement, as specified, and provides that up to 10% may be achieved through biomass conversion under certain conditions, with biomass conversion defined as the production of heat, fuels, or electricity by certain means from specified materials. One of the conditions for using biomass conversion to satisfy a portion of the solid waste diversion requirement is that pyrolysis not be included in the source reduction and recycling element. Pyrolysis is not defined for that purpose or for other purposes in the act. This bill would define pyrolysis as the thermal decomposition of organic material at elevated temperatures in the absence or near absence of oxygen.

Status: 9/14/2023-Ordered to inactive file on request of Assembly Member Bryan.

Location: 9/14/2023-A. INACTIVE FILE

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: Current law, until January 1, 2024, authorizes the legislative body of a local agency to use alternate teleconferencing provisions during a proclaimed state of emergency or in other situations related to public health that exempt a legislative body from the general requirements (emergency provisions) and impose different requirements for notice, agenda, and public participation, as prescribed. The emergency provisions specify that they do not require a legislative body to provide a physical location from which the public may attend or comment. Current law, until January 1, 2026, authorizes the legislative body of a local agency to use alternative teleconferencing in certain circumstances related to the particular member if at least a quorum of its members participate from a singular physical location that is open to the public and situated within the agency’s jurisdiction and other requirements are met, including restrictions on remote participation by a member of the legislative body. These circumstances include if a member shows “just cause,” including for a childcare or caregiving need of a relative that requires the member to participate remotely. This bill would expand the circumstances of “just cause” to apply to the situation in which an immunocompromised child, parent, grandparent, or other specified relative requires the member to participate remotely. The bill would authorize the legislative body of a multijurisdictional, cross-county agency, as specified, to use alternate teleconferencing provisions if the eligible legislative body has adopted an authorizing resolution, as specified. The bill would also require the legislative body to provide a record of attendance of the members of the legislative body, the number of community members in attendance in the teleconference meeting, and the number of public comments on its internet website within 10

days after a teleconference meeting, as specified. The bill would require at least a quorum of members of the legislative body to participate from one or more physical locations that are open to the public and within the boundaries of the territory over which the local agency exercises jurisdiction.

Desk	Policy	Fiscal	Floor	Desk	2 year	Fiscal	Floor	Conf.	Enrolled	Vetoed	Chaptered
1st House				2nd House				Conc.			

Summary: Current law requires the Secretary for Environmental Protection to convene the Lithium-Ion Car Battery Recycling Advisory Group to review, and advise the Legislature on, policies pertaining to the recovery and recycling of lithium-ion vehicle batteries sold with motor vehicles in the state. Current law also requires the advisory group to submit policy recommendations to the Legislature aimed at ensuring that as close to 100% as possible of lithium-ion vehicle batteries in the state are reused or recycled at end-of-life in a safe and cost-effective manner. This bill would repeal those requirements. The bill would instead require vehicle traction batteries, as defined, in the state to be recovered and reused, repurposed, or remanufactured and eventually recycled at the end of their useful life in a motor vehicle or any other application. The bill would also require a vehicle manufacturer, dealer, automobile dismantler, automotive repair dealer, and nonvehicle secondary user to be responsible for ensuring the responsible end-of-life management of a vehicle traction battery once it is removed from a vehicle or other application to which the vehicle traction battery has been used. The bill would make a vehicle or battery manufacturer responsible for collecting a stranded battery, as defined, and repurposing the battery, if possible, but would require the manufacturer to ensure the battery is recycled if it cannot be reused. The bill would require, by January 1, 2025, a battery supplier, as described, to be responsible for the development of a core exchange program for replacing a battery, module, or cell removed from a vehicle, as specified.

Summary: The California Integrated Waste Management Act of 1989, administered by the Department of Resources Recycling and Recovery, generally regulates the disposal, management, and recycling of solid waste. The act establishes stewardship programs for various products, including, among others, carpet, mattresses, and pharmaceutical and sharps waste. This bill would enact a stewardship program known as the Responsible Textile Recovery Act of 2024, which would require a producer of apparel, as defined, or textile articles, as defined, to form and join a producer responsibility organization or PRO. The bill would require the PRO to be approved by the department pursuant to the requirements of the bill, as provided. The bill would require the department to adopt regulations to implement the program no earlier than January 1, 2028. The bill would require the PRO to submit to the department, for approval or disapproval, a complete plan for the collection, transportation, repair, sorting, and recycling, and the safe and proper management, of apparel, as defined, and textile articles, as defined, in the state. Upon approval of a plan, or commencing January 1, 2030, whichever is earlier, the bill would prohibit a producer from selling, offering for sale, importing, or distributing apparel or textiles in or into the state, unless the producer is a participant of a PRO, the department has approved the plan, and other criteria are met.

Calendar: 5/6/2024 10 a.m. - 1021 O Street, Room 2200 SENATE APPROPRIATIONS, CABALLERO, ANNA, Chair

Summary: Current law prohibits a store, as defined, from providing a single-use carryout bag, as defined, to a customer, with specified exceptions, including an exemption for bags used to contain unwrapped food. Current law requires a reusable grocery bag sold by a store to a customer at the point of sale to be made by a certified reusable grocery bag producer and to meet specified requirements with regard to the bag’s durability, material, labeling, heavy metal content, and, with regard to reusable grocery bags made from plastic film, recycled material content. Current law prohibits a producer of reusable grocery bags made from plastic film from selling or distributing those bags unless the producer is certified by a third-party certification entity, and provides proof of that certification and a certification fee to the department, as specified. Current law also prohibits a store from selling or distributing a recycled paper bag at the point of sale unless the store makes that bag available for purchase for not less than \$0.10. Current law defines “recycled paper bag,” in part, as a paper carryout bag that contains a minimum of 40% postconsumer recycled materials, except as provided, and meets other requirements. Current law allows a retail establishment to voluntarily comply with these requirements, if the retail establishment provides the department with irrevocable notice. This bill would, commencing January 1, 2026, revise and recast those provisions to, among other things, revise the single-use carryout bag exception to include a bag provided to a customer before the customer reaches the point of sale that is designed to protect a purchased item from damaging or contaminating other purchased items in a checkout bag, or to contain an unwrapped food item, as specified. The bill would revise the definition of “recycled paper bag” to require it be made from 100% postconsumer recycled materials, without exception.

Desk	Policy	Fiscal	Floor	Desk	2 year	Fiscal	Floor	Conf.	Enrolled	Vetoed	Chaptered
1st House				2nd House				Conc.			

Summary: Current law requires the Department of Food and Agriculture, in consultation with the State Department of Public Health, to publish information to encourage food manufacturers, processors, and retailers responsible for the labeling of food products to voluntarily use specified uniform terms on food product labels to communicate quality dates, as defined, and safety dates, as defined. Current law also requires the Department of Food and Agriculture to encourage food distributors and retailers to develop alternatives to consumer-facing "sell by" dates, defined to mean a date on a label affixed to the packaging or container of food that is intended to communicate primarily to a distributor or retailer for purposes of stock rotation and that is not a quality date or a safety date. The Food and Agricultural Code provides that, unless a different penalty is expressly provided, a violation of any provision of that code is a misdemeanor. This bill would instead require, on and after January 1, 2025, a food manufacturer, processor, or retailer responsible for the labeling of food items for human consumption that chooses, or is otherwise required by law, to display a date label to communicate a quality or safety date on a food item manufactured on or after January 1, 2025, to use one of the specified terms on the date label, as provided. The bill would prohibit a person from selling or offering for sale in the state a food item for human consumption manufactured on or after January 1, 2025, that displays a quality or safety date label that is not labeled in accordance with these terms. The bill would prohibit a person from selling or offering for sale in the state a food item for human consumption manufactured on or after January 1, 2025, that is labeled with the phrase "sell by," as specified.

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: The Ralph M. Brown Act requires, with specified exceptions, each legislative body of a local agency to provide notice of the time and place for its regular meetings and an agenda containing a brief general description of each item of business to be transacted. The act also requires that all meetings of a legislative body be open and public, and that all persons be permitted to attend unless a closed session is authorized. The act generally requires for teleconferencing that the legislative body of a local agency that elects to use teleconferencing post agendas at all teleconference locations, identify each teleconference location in the notice and agenda of the meeting or proceeding, and have each teleconference location be accessible to the public. Existing law also requires that, during the teleconference, at least a quorum of the members of the legislative body participate from locations within the boundaries of the territory over which the local agency exercises jurisdiction. Current law authorizes the legislative body of a local agency to use alternate teleconferencing provisions during a proclaimed state of emergency (emergency provisions) and, until January 1, 2026, in certain circumstances related to the particular member if at least a quorum of its members participate from a singular physical location that is open to the public and situated within the agency's jurisdiction and other requirements are met (nonemergency provisions). This bill, until January 1, 2026, would authorize a subsidiary body, as defined, to use similar alternative teleconferencing provisions and would impose requirements for notice, agenda, and public participation, as prescribed. In order to use teleconferencing pursuant to this act, the bill would require the legislative body that established the subsidiary body by charter, ordinance, resolution, or other formal action to make specified findings by majority vote, before the subsidiary body uses teleconferencing for the first time and every 12 months thereafter.

Status: 7/14/2023-Failed Deadline pursuant to Rule 61(a)(10). (Last location was E.Q. on 6/14/2023) (May be acted upon Jan 2024)

Location: 7/14/2023-S. 2 YEAR

Desk	Policy	Fiscal	Floor	Desk	2 year	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: Would require the Board of Environmental Safety to contract with an entity that has expertise in remediating contaminated sites for the purpose of reviewing the Department of Toxic Substances Control's residential cleanup near the former Exide Technologies lead-acid battery recycling facility in the City of Vernon. The bill would require the contractor to use only existing data in its review, but, if necessary, the bill would authorize the contractor to take, review, and analyze limited samples. The bill would require the contractor to meet with members of the community to hear comments or concerns about the cleanup and provide its findings to the board, as specified. The bill would require the board to post the contractor's findings on the board's internet website.

Location: 4/15/2024-A. THIRD READING

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Calendar: 4/29/2024 #67 ASSEMBLY THIRD READING FILE - ASSEMBLY BILLS

Summary: The Ralph M. Brown Act generally requires for teleconferencing that the legislative body of a local agency that elects to use teleconferencing post agendas at all teleconference locations, identify each teleconference location in the notice and agenda of the meeting or proceeding, and have each teleconference location be accessible to the public. Current law also requires that, during the teleconference, at least a quorum of the members of the legislative body participate from locations within the boundaries of the territory over which the local agency exercises jurisdiction. The act provides an exemption to the jurisdictional requirement for health authorities, as defined. Current law, until January 1, 2026, authorizes the legislative body of a local agency to use alternative teleconferencing in specified circumstances if, during the teleconference meeting, at least a quorum of the members of the legislative body participates in person from a singular physical location clearly identified on the agenda that is open to the public and situated within the boundaries of the territory over which the local agency exercises jurisdiction, and the legislative body complies with prescribed requirements. Current law imposes prescribed restrictions on remote participation by a member under these alternative teleconferencing provisions, including establishing limits on the number of meetings a member may participate in solely by teleconference from a remote location, prohibiting such participation for a period of more than 3 consecutive months or 20% of the regular meetings for the local agency within a calendar year, or more than 2 meetings if the legislative body regularly meets fewer than 10 times per calendar year. This bill would revise those limits, instead prohibiting such participation for more than a specified number of meetings per year, based on how frequently the legislative body regularly meets.

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: The California Beverage Container Recycling and Litter Reduction Act authorizes the Department of Resources Recycling and Recovery, subject to the availability of funds, to pay a market development payment to a reclaimer for empty plastic beverage containers that have been collected for recycling in the state, and that the reclaimer washes and processes into flake, pellet, sheet, or any other form that is then usable as input for the manufacture of new plastic products by product manufacturers in the state. The act also authorizes the department, subject to the availability of funds, to pay a market development payment to a product manufacturer for plastic flake, pellet, sheet, or any other form of plastic purchased from a reclaimer and used by that product manufacturer to manufacture a plastic product in the state. The act makes this market development payment program inoperative on July 1, 2025. The act continuously appropriates redemption payments by distributors

and other revenues received into the California Beverage Container Recycling Fund for market development program payments, among other purposes. This bill would extend the inoperative date of the market development payment program to January 1, 2026, subject to the availability of funds, and would repeal the program as of July 31, 2026.

1st House				2nd House				Conc.			

Summary: Current law requires the State Air Resources Board to adopt and implement motor vehicle emission standards, in-use performance standards, and motor vehicle fuel specifications for the control of air contaminants and sources of air pollution that the state board has found necessary, cost effective, and technologically feasible. Pursuant to its authority, the state board has adopted the Advanced Clean Fleets Regulation, which imposes various requirements for transitioning local, state, and federal government fleets of medium- and heavy-duty trucks, other high-priority fleets of medium- and heavy-duty trucks, and drayage trucks to zero-emission vehicles. The Advanced Clean Fleets Regulation authorizes entities subject to the regulation to apply for exemptions from its requirements under certain circumstances. This bill would extend the compliance dates for local government set forth in the Advanced Clean Fleets Regulation by 10 years. The bill would prohibit the state board from taking enforcement action against a local government for violating the Advanced Clean Fleets Regulation if the alleged violation occurs before January 1, 2025.

Calendar: 5/1/2024 9:30 a.m. - 1021 O Street, Room 1100 ASSEMBLY APPROPRIATIONS, WICKS, BUFFY, Chair

Summary: Current law requires the State Air Resources Board to complete, approve, and implement a comprehensive strategy to reduce emissions of short-lived climate pollutants in the state to reduce statewide methane emissions by 40% below 2013 levels by 2030. Current law requires methane emissions reduction goals to include specified targets to reduce the landfill disposal of organics. Current law requires the Department of Resources Recycling and Recovery, in consultation with the state board, to adopt regulations that achieve those targets for reducing organic waste in landfills, as provided. The department's organic waste regulations provide different organic waste procurement targets for local jurisdictions based on population and provide waivers and exemptions from collection and procurement requirements for rural, low-population, and high-elevation jurisdictions. Current law provides that the exemption for rural jurisdictions is valid until December 31, 2026, as specified. This bill would extend the rural jurisdiction exemption until January 1, 2037, except as provided, and would require the department to adopt regulations to establish a process to renew the exemption after that date for periods of up to 10 years. The bill would require, commencing January 1, 2027, those jurisdictions to take specific actions to help reduce, divert, or recycle organic waste.

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: The California Beverage Container Recycling and Litter Reduction Act requires plastic beverage containers sold by a beverage manufacturer, as specified, to contain a specified average percentage of postconsumer recycled plastic per year. The act requires the manufacturer of a beverage sold in a plastic beverage container subject to the California Redemption Value to report to the Department of Resources Recycling and Recovery certain information about the amounts of virgin plastic and postconsumer recycled plastic used for plastic beverage containers subject to the California Redemption Value for sale in the state in the previous calendar year. Current law provides that a violation of the act or a regulation adopted pursuant to the act is a crime. This bill would authorize certain beverage manufacturers to submit with other beverage manufacturers a consolidated report, in lieu of individual reports, that identifies the postconsumer recycled plastic content for beverage containers and the amounts of virgin plastic and postconsumer recycled plastic used in beverage containers, as specified. The bill would require the consolidated report to be submitted under penalty of perjury and pursuant to standardized forms prescribed by the department.

1st House				2nd House				Conc.			

Calendar: 4/29/2024 #7 SENATE SENATE BILLS - SECOND READING FILE

Summary: Would require the Department of Conservation to develop the Biomass Technology Transition Program to support the conversion of energy generation facilities using biomass and traditional combustion technologies to newer advanced bioenergy technology facilities that result in reductions in the emissions of criteria pollutants, toxic air contaminants, and greenhouse gases. The bill would require the department, on or before December 1, 2025, to identify generation facilities with a generation capacity of 10 megawatts or greater that uses, or are in the process of recommissioning or the redevelopment of those facilities to use, any type of clean woody biomass and the operators of those facilities have demonstrated to the department their sincere interest, to the satisfaction of the department, in converting the facilities to advanced bioenergy technologies that result in a reduction in emissions of criteria pollutants, toxic air contaminants, and greenhouse gases. The bill would require the department to request the relevant local air pollution control district or air quality management district to provide information for each identified generation facility about best available control technologies, and other potential advanced emission control technologies, that would be required if the generation facility requests a permit, as provided. The bill would require the department, on or before January 1, 2032, to establish a grant program to support the distribution of advanced bioenergy technologies from those identified generation facilities that meet certain requirements.

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf.	Enrolled	Vetoed	Chaptered
1st House				2nd House				Conc.			

Summary: The Sherman Food, Drug, and Cosmetic Law regulates, among other things, the manufacture, production, processing, and packing of any food, drug, device, or cosmetic, and is administered by the State Department of Public Health. The law prescribes various quality and labeling standards for bottled water and vended water, and limits the levels of certain contaminants that may be contained in those water products. Current law makes a violation of the law or regulation adopted pursuant to the law a crime. Current law requires, as a condition of licensure, a water-bottling plant, as defined, to annually prepare a water-bottling plant report, as specified, and to make the report available to each customer, upon request. This bill would require, upon adoption by the State Water Resources Control Board of a primary drinking water standard for microplastics, any water-bottling plant that produces bottled water that is sold in this state to provide the State Department of Public Health's Food and Drug Branch an annual report on the levels of microplastics found in the source water used for bottling and in the final bottled water product that is offered for sale, as provided. The bill would require this report to be included with the annual water-bottling plant report and, upon request, be made available to each consumer.

Calendar: 4/29/2024 #76 SENATE SENATE BILLS -THIRD READING FILE

Summary: Current law requires the Department of Resources Recycling and Recovery, in consultation with the State Air Resources Board, to adopt regulations that achieve targets for reducing organic waste in landfills that may include, among other things, different levels of requirements for local jurisdictions and phased timelines based upon their progress in meeting the organic waste reduction goals, and penalties to be imposed by the department for noncompliance. The department’s regulations authorize low-population and elevation waivers for a local jurisdiction based on, among other things, a consideration of the jurisdiction’s census tracts, that exempt the jurisdiction from all or some of the department’s organic waste collection requirements. This bill would require the department to consider, in addition to census tracts, alternatives to those census tracts, as provided, when deciding the boundaries of a low-population or elevation waiver.

1st House				2nd House				Conc.			

Calendar: 4/29/2024 10 a.m. - 1021 O Street, Room 2200 SENATE APPROPRIATIONS, CABALLERO, ANNA, Chair

Summary: The Plastic Pollution Prevention and Packaging Producer Responsibility Act covers certain single-use packaging and plastic single-use food service ware, as provided. As part of its comprehensive statutory scheme, the act requires producers of those covered materials to reduce and recycle the covered plastic material and to ensure that covered materials that are offered for sale, distributed, or imported in or into the state on or after January 1, 2032, are recyclable or compostable, as provided. The act authorizes the Department of Resources Recycling and Recovery to identify materials that are trending toward meeting specified requirements and criteria to be considered recyclable within the state, as provided, and requires those material types and forms to be considered and labeled as recyclable in the state as long as the material types and forms meet certain requirements. This bill would instead authorize a producer or group of producers of products using covered materials to petition the department to identify material types and forms that meet those specified requirements and criteria to be considered as recyclable in the state.

Location: 4/3/2024-S. E.Q.

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf.	Enrolled	Vetoed	Chaptered
1st House				2nd House				Conc.			

Summary: Current law requires methane emissions reduction goals to include specified targets to reduce the landfill disposal of organics. Current law requires the Department of Resources Recycling and Recovery, in consultation with the state board, to adopt regulations that achieve those targets for reducing organic waste in landfills, as provided. The department’s organic waste regulations provide different organic waste procurement targets for local jurisdictions based on population and provide waivers and exemptions from collection and procurement requirements for, among other things, low-population jurisdictions. Articles XIIIC and XIIID of the California Constitution generally require that assessments, fees, and charges be submitted to property owners for approval or rejection after the provision of written notice and the holding of a public hearing. Existing law, the Proposition 218 Omnibus Implementation Act, prescribes specific procedures and parameters for local jurisdictions to comply with Articles XIIIC and XIIID of the California Constitution. Current statutory law provides notice, protest, and hearing procedures for the levying of new or increased fees or charges by local government agencies pursuant to Article XIIID of the California Constitution. This bill would exempt a portion of a county from the prescribed organic waste collection requirements if the county proposed a fee for the collection of organic waste in that portion of that county and the county did not impose the fee in that portion of that county because, when submitted to property owners for approval, it was rejected.

1st House				2nd House				Conc.			

Calendar: 4/29/2024 #11 SENATE SENATE BILLS - SECOND READING FILE

Summary: The California Beverage Container Recycling and Litter Reduction Act, administered by the Department of Resources Recycling and Recovery, is established to promote beverage container recycling. The act requires every beverage distributor to pay a redemption payment to the Department of Resources Recycling and Recovery for every beverage container sold or offered for sale in the state. The department is required to deposit those amounts in the California Beverage Container Recycling Fund. The moneys in the fund are continuously appropriated to the department for specified purposes, including paying refund values, processing payments, administrative fees, and handling fees to certain types of recyclers to provide an incentive for the redemption of empty beverage containers in the state. This bill would require the Department of Resources Recycling and Recovery to certify an operator of a recycling machine, as defined, as a processor and as a recycling center, subject to specified conditions, and would make the operator eligible for refund values, processing payments, and other program payments, thereby making an appropriation. The bill would impose a state-mandated local program by expanding the scope of a crime under the act.

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf.	Enrolled	Vetoed	Chaptered
1st House				2nd House				Conc.			

Summary: The California Beverage Container Recycling and Litter Reduction Act requires a beverage manufacturer to pay to the Department of Resources Recycling and Recovery a processing fee for each beverage container, as defined, sold or transferred in this state. The act requires the department to pay processing payments to processors and recycling centers from the California Beverage Container Recycling Fund, as specified. The act requires the processing payment to be at least equal to the difference between the scrap value of the beverage containers and the sum of certain actual operational costs for certified recycling centers and a reasonable financial return for recycling centers, as specified. Current regulations require a reasonable financial return for recycling centers equal to 10% of certain statewide averages. The act requires the processing fee to be 65% of the processing payment, except as specified. This bill would specify, for purposes of calculating the processing payment, that 10% is a reasonable financial return for recycling centers.

1st House				2nd House				Conc.			

Calendar: 5/6/2024 10 a.m. - 1021 O Street, Room 2200 SENATE APPROPRIATIONS, CABALLERO, ANNA, Chair

Summary: Would make it a crime to dump, deposit, or transport for the purpose of dumping or depositing, any waste matter, rocks, concrete, asphalt, or dirt on private property with the consent of the owner or an agent of the owner if a permit or license was required by a state or local agency and was not obtained. The bill would make it a crime for a property owner or agent to receive waste matter, rocks, concrete, asphalt, or dirt if a permit or license is required from a state or a local agency and was not obtained prior to receiving the waste matter, rocks, concrete, asphalt, or dirt. The bill would increase the fines for violating these provisions and would make these violations misdemeanors. The bill would make it a separate offense every 72 hours that the illegally dumped waste remains. The bill would make these provisions inapplicable to any owner, or agent of any owner, of property on which a legally authorized rock product operation, as defined, is located, or of property that is subject to a reclamation plan, as specified, at the time that the property owner or agent of the property owner received rocks, concrete, asphalt, or dirt onto their property. The bill would also make it unlawful to transport waste matter in commercial quantities for the purpose of dumping it in the locations described above. Because this bill would expand the scope of a crime and increase the punishment of a crime from an infraction to a misdemeanor, it would impose a state-mandated local program.
