Operational Summary
January 2014

Material Recover Facility (MRF)

SBR continues to monitor the production to ensure productivity standards are met without compromising material quality. SBR receives on average 1,200 tons per month of third party single stream recyclable materials.

Transfer Station Operation and Outbound Shipments

SBR continues to divert materials from the solid waste stream and is continually searching for opportunities to increase diversion from the landfill. We have experienced a reduction in our average payloads (22 to 20 TPL) due to a change in what the C&D processor will accept as recyclable C&D material.

Public Recycling Center

The Public Recycling Center (PRC) is operating in a safe and efficient manner. SBR employees are focused on providing excellent customer service that meets or exceeds its patrons expectations.
