

**Shoreway Environmental Center  
Shoreway Facility Operations Monthly Reporting  
March 2018**

Dear Joe:

Fiber values continued to decline in March. Cardboard (OCC) pricing reduced by \$30.73 per ton from prior month to \$77.00. Sorted Mixed Paper (SMP) fell \$17.36 per ton from prior month to (\$8.00). This is the first time we've experienced a charge for this commodity in its history, and we anticipate pricing for this commodity will continue to decline.

With the advent of China's National Sword, U. S. MRFs are unable to produce a paper product that can meet the stringent quality standards set by China of 0.05%. To meet China's strictly enforced material quality standard, MRFs are exploring purchasing and installing costly fiber optical sorting equipment that may be able to produce a Sorted Residential Paper (SRP) that can be sold to China at a much higher price than secondary markets. In the meantime, it's been rumored that some MRFs have begun sending mixed paper to the landfill.

China's ban on post-consumer mixed plastics has essentially rendered this market obsolete. As a result, Buyers are no longer providing pricing for these materials, and at the SBWMAs request, are being disposed of. Markets for #1PET and #2 HDPE continue to be stable.

The significant changes to China's commodities import laws is and will continue to have a powerful and negative impact on fiber pricing. Secondary markets (i.e., Vietnam, Malaysia, Indonesia, Taiwan, etc.) are already overwhelmed with tonnage and low-priced offers from U.S. and Europe, and may not be a long-term solution for moving Sorted Mixed Paper (SMP), which could make product movement impossible.

The crisis impacting the CA MRF business is unfolding, and it will likely take a few months to fully understand the short term (2018) and long term (2019 and beyond) consequences.

If you have any questions, please do not hesitate to contact me.

Sincerely,

*Dwight E Herring*
