**Operational Summary**  
**November 2012**

**Material Recover Facility (MRF)**

SBR continues to monitor the production to ensure productivity standards are met without compromising material quality. In October, SBR began accepting third party single stream recyclable materials from Recology of the Coast.

**Transfer Station Operation and Outbound Shipments**

SBR continues to divert materials from the solid waste stream and look for opportunities to expand its diversion. Two (2) of SBRs aluminum Walking Floor Trailers has been converted to a steel walking floor to transport Glass and Inert/C&D material in a safer manner.

**Public Recycling Center**

The Public Recycling Center (PRC) is operating in a safe and efficient manner. SBR employees are focused on providing excellent customer service that meets or exceeds its patrons expectations. In October, the PRC began accepting Mixed Film Plastic for drop off.
